

# Textbook and Calculator Information for STAT 117 Introduction to Statistics

Course Begin: Tuesday, May 24, 2022

Course End: Tuesday, July 12, 2022

**Section C0A [CRN 50109]:** Online *Asynchronous* Final Exam: Tuesday, July 12, 2022

**Textbook:** We will use [MyLab Statistics with Sullivan's Fundamentals of Statistics, 5th Edition](#) throughout the course. MyLab Statistics (also referred to as MyStatLab [MSL]) provides access to the textbook in three forms – an HTML version, a by-chapter version, and an accessible, mobile version to which you may add your own notes -- as well as access to various resources *and* the online assignments. **You must purchase MSL access: the online assignments will be worked and completed within the MyStatLab environment.**

The two (2) purchase options available at the **Framingham State University Bookstore** are provided below.

- (i) If you prefer to use an *online* textbook then you should select the 18-week MyStatLab Standalone Access Card. [ISBN-13: 9780135910634]
- (ii) If you prefer to have a *printed* textbook to use *with* MyStatLab then you should select the *Books a la carte* edition of Sullivan's *Fundamentals of Statistics, 5th Edition* packaged with 18-week MyStatLab access. [ISBN-13: 9780135990414]

**MyStatLab Access Purchased from Pearson:** MyStatLab access can be purchased directly from Pearson at <https://www.pearsonmylabandmastering.com/northamerica/> or <https://mlm.pearson.com/northamerica/>: the price for 18-week MyStatLab access is \$84.99; of the two purchase options available from Pearson, the 18-week access option is appropriate for this course. Direct purchase from Pearson is more economical unless you have a voucher which can only be used at the Framingham State University Bookstore.

**When registering for MyStatLab access,** select the “*Get temporary access without payment for 14 days*” option displayed at the bottom of the screen capture (at left). At the end of the 2-week temporary access period, you will be prompted to pay or enter your access code (purchased at the Framingham State University Bookstore or elsewhere) for continued MyStatLab access.

**Use an Access Code**

A prepaid [access code](#) might come with your textbook or in a separate kit.

Access Code

**Use a Credit Card or PayPal**

Student access (up to 24 months) for MyLab Statistics with eText for Sullivan, Fundamentals of Statistics 5e

\$119.99 USD

**Student Access (18 Weeks)**

- Your 18-weeks starts the day you complete registration
- Provides access to MyLab and the eText
- Allows you to learn fully online
- Note: after 18 weeks, you would need to purchase this option again

18-Week student access for MyLab Statistics with eText for Sullivan, Fundamentals of Statistics 5e

\$84.99 USD

Waiting for financial aid?

[Get temporary access without payment for 14 days.](#) Use an access code, credit card, or Paypal before  to stay in your course.

**Calculator:** You need a scientific calculator<sup>Ⓢ</sup> which must, at least, have built-in combination, permutation, and factorial functions. If you own one of the various [TI-83](#) or [TI-84](#) model calculators, you are welcome to use it; there is no need to purchase a TI-83 or TI-84 calculator specifically for the course. Additional calculators which have the necessary functions include [TI-30XS](#), [TI-30X IIS](#), [TI-34](#), [TI-36X](#), [Casio fx-115ES PLUS](#), [Casio fx-300ES PLUS](#), and [Casio fx-991ES PLUS](#).

**NOTE:** The [TI-89](#), [TI-Nspire CX II](#), and [TI-Nspire CX II CAS](#) model calculators are *not* appropriate for this course; instruction for the use of these calculators will *not* be provided. Although some financial calculators such as the [TI-BA II Plus](#) and [Casio FC-200V](#) include the necessary functions, financial calculators are not designed for use in mathematics or statistics courses; instruction for the use of financial calculators will *not* be provided.

<sup>Ⓢ</sup> These hyperlinks are provided to help you identify the model of your calculator.
